We are looking for Junior Process Engineers!

Bilfinger Tebodin in Central and Eastern Europe (CEE) is the largest engineering group in this region, having 800 consultants, engineers and managers in-house. Apart from the construction sites worldwide, the company staff is located in offices across 7 countries: Czech Republic, Hungary, Poland, Romania, Russia, Serbia, Ukraine. Intensive efforts to unite people across those countries result in delivering top quality international best practice to the clients.

Bilfinger Tebodin clients are international financial institutions, government bodies and leading global and local companies, representing different industries. Among many, Bilfinger Tebodin is a partner for Bayer, Bosch, Bridgestone, Cargill, Gestamp, Henkel, LafargeHolcim, Mars, Mondelez, Sanofi, Shell, Skoda, Siemens, Viessmann, Unilever.

We are looking for **Junior Process Engineers** to our team in Ploiesti.

Apply, if you...:

- .. want to gain valuable knowledge from a large company
- .. you speak English well
- .. you are interested in industrial investments.

These tasks are waiting for you:

- Digitalization of process charts (P&ID)
- Active use of design software for inspection
- Teaching AI system (artificial intelligence) to recognize correct and incorrect procedures (this task doesn't need programming knowledge)
- Support senior engineers

The ideal candidate:

- Mechanical-, process- or instrumentation engineer (with on-going or completed studies)
- Speaks English in communication level
- Interested in design software

What we offer:

- Earn useful experience: software and design knowledge
- Working together with senior engineers, who help your professional development
- Flexibility: our position is available part-time (min. 20h/week) or full-time

Place of work: Boulevard Bucuresti, nr.28, Cladirea Centru de Calcul, et.4, Ploiesti

If you are interested in our position, feel free to contact us on felicia.nagy.soltesz@bilfinger.com email address.
